I am a student at Multimedia Nusantara University with a strong passion for web development, web design, and mobile app development. I specialize in creating intuitive and visually appealing websites, focusing on front-end development, and have experience working on both the back-end and mobile apps. My technical skills include HTML, CSS, PHP, Laravel, and Tailwind CSS, along with experience in JavaScript, ReactJS, and Android development using Kotlin. Through various projects, I have developed a well-rounded skill set that includes designing user-centric websites and applications while ensuring seamless performance across platforms.
